Boulanger and finally Robert Puiseux and Pierre Bercot His oeuvre for Citroen alone earns him a place of honour among the great automobile designers of the past century The fact that most present day cars still carry the DNA of his design philosophy makes him stand out above other automotive pioneers and innovators That is why it is amazing that so little is known about this fascinating and brilliant engineer This book was written in order to remedy that and to pay tribute to Andre Lefebvre the passionate pioneer who left car enthusiasts around the world such an important heritage *Звезда и смерть Андре Ситроена.
