Immigration, Citizenship and Insecurity Heli Askola, 2025-06-06 *Immigration Citizenship and Insecurity An Australian Story* explores how Australia's policies on migration and nationality have shaped citizenship and social inclusion. The book examines the historical and contemporary intersections of citizenship, migration and insecurity, analysing key issues such as the prioritisation of economic utility in migration policy, cultural expectations placed on newcomers and the role of migrants in political debate. It critically assesses Australia's responses to challenges such as demographic ageing, cultural diversity and erosion of political authority. The impact of emergency measures during the COVID-19 pandemic is also explored, revealing the fragility of citizenship protections in times of crisis. This book is an essential resource for scholars, policy makers and professionals in migration studies, political science and public policy, as well as anyone interested in the evolving dynamics of citizenship and migration in Australia and beyond.

Understanding Statelessness Tendayi Bloom, Katherine Tonkiss, Phillip Cole, 2017-08-04 *Understanding Statelessness* aims to offer a comprehensive in-depth treatment of statelessness.

Citizenship, Borders, and Human Needs Rogers M. Smith, 2011-01-19 From anxiety about Muslim immigrants in Western Europe to concerns about undocumented workers and cross-border security threats in the United States, disputes over immigration have proliferated and intensified in recent years. These debates are among the most contentious facing constitutional democracies and they show little sign of fading away. Edited and with an introduction by political scientist Rogers M. Smith, *Citizenship Borders and Human Needs* brings together essays by leading international scholars from a wide range of disciplines to explore the economic, cultural, political and normative aspects of comparative immigration policies. In the first section, contributors go beyond familiar explanations of immigration's economic effects to explore whose needs are truly helped and harmed by current migration patterns. The concerns of receiving countries include but are not limited to their economic interests and several essays weigh different models of managing cultural identity and conflict in democracies with large immigrant populations. Other essays consider the implications of immigration for politics and citizenship. In many nations, large-scale immigration challenges existing political institutions which must struggle to foster political inclusion and accommodate changing ways of belonging to the polity. The volume concludes with contrasting reflections on the normative standards that should guide immigration policies in modern constitutional democracies. *Citizenship Borders and Human Needs* develops connections between thoughtful scholarship and public policy, thereby advancing public debate on these complex and divisive issues. Though most attention in the collection is devoted to the dilemmas facing immigrant-receiving countries in the West, the volume also explores policies and outcomes in immigrant-sending countries as well as the situation of developing nations such as India that are net receivers of migrants.

Multilevel Citizenship Willem Maas, 2013-05-30 *Multilevel Citizenship* challenges the dominant conception of citizenship as legal and political equality within a sovereign state, demonstrating how citizenship is constructed by political

and legal practices and explores alternative forms of membership in substate suprastate and nonstate political communities

Citizenship on the Edge Nancy J. Hirschmann, Deborah A. Thomas, 2022-01-04 What does it mean to claim two decades into the twenty first century that citizenship is on the edge The questions that animate this volume focus attention on the relationships between liberal conceptions of citizenship and democracy on one hand and sex race and gender on the other Who counts as a citizen in today s world and what are the mechanisms through which the rights benefits and protections of liberal citizenship are differentially bestowed upon diverse groups What are the relationships between global economic processes and political and legal empowerment What forms of violence emerge in order to defend and define these rights benefits and protections and how do these forms of violence reflect long histories How might we recognize and account for the various avenues through which people attempt to make themselves as political subjects *Citizenship on the Edge* approaches these questions from multiple disciplines including Africana Studies anthropology disability studies film studies gender studies history law political science and sociology Contributors explore the ways in which compounding social inequalities redound to the conditions and expressions of citizenship in the U S and throughout the world They give a sense of the breathtaking range of the ways that citizenship is controlled repressed undercut and denied at the same time as they outline people s attempts to claim citizenship in ways that are meaningful to them From university speech policies to labor and immigration policies to a rethinking of the security theatre to women s empowerment in the family and economy and a rethinking of marriage and the family we see slivers of possibility for a more inclusive and less hostile world in which citizenship is no longer so in doubt so on the edge for so many As a whole the volume argues that citizenship cannot be conceptualized as a transcendent good but must instead always be contextualized within specific places and times and in relation to dynamic struggle Contributors Erez Aloni Ange Marie Hancock Alfaro Nancy J Hirschmann Samantha Majic Valentine M Moghadam Michael Rembis Tracy Robinson Ellen Samuels Kimberly Theidon Deborah A Thomas
