

SEARS

OWNER'S MANUAL

NOTICE TO U. S. CONSUMERS:

Some states prohibit the service or repair of garage door openers which cannot be made to comply with the safety standards contained in UL 325 (1988 revision). In order to comply with both the letter and the spirit of these laws, this universal remote control converter kit should not be used with any Sears Craftsman® garage door opener manufactured prior to April 1, 1982.

UNIVERSAL REMOTE CONTROLS consist of a receiver and remote control(s). The remote control sends a coded signal from outside the garage. Inside the garage, the plug-in receiver accepts the transmitted signal and starts the door opener.

IMPORTANT: Disable your existing receiver before installing this replacement unit. If this is not possible, locate receiver as far from original receiver as possible. When installing two or more receivers in a garage, position them at least 10 feet apart to prevent electronic

OPENER RECEIVER: Insert a small screwdriver in slot on receiver front panel as shown. Twist up actuator cover.

CONNECT RECEIVER AND OPENER: Remove about 1/4" of insulation from each end of the 2-strand bell wire. Connect one end to the receiver screw terminals (polarity is NOT required). Route wire along the channels and out the bottom as shown.

Connect the other end of the bell wire to the two opener terminal screws labeled "white and red", "common and command" or the terminals used for the push button control.

Use insulated staples (not supplied) to secure bell wire between receiver and opener. Length of bell wire depends on where the receiver will be installed. Replace the actuator cover.

Choose a 120Vac polarized outlet for the receiver which is **OUT OF THE REACH OF CHILDREN**. Plug receiver into selected outlet. Return power to the opener.

The receiver and remote control(s) have been factory preset with a matching code. **THE REMOTE CONTROL(S) OPERATES FROM THE LARGE PUSH BUTTON.** You can activate your opener with as many as four "SRT" remote controls and one Keyless Entry.

If you purchase additional remote controls to operate this receiver:

- 1) Remove the receiver actuator cover.
- 2) Press and HOLD the selected remote control push button (Illustration A).
- 3) Then press the "SRT" actuator on the receiver (Illustration B). The adjacent indicator light will FLASH. Release the remote control push button.

The opener will now operate when either the receiver actuator or the remote control push button is pressed.
