An Internet for the People Jessa Lingel,2022-06-14 How craigslist champions openness democracy and other vanishing principles of the early web Begun by Craig Newmark as an e mail to some friends about cool events happening around San Francisco craigslist is now the leading classifieds service on the planet It is also a throwback to the early internet The website has barely seen an upgrade since it launched in 1996 There are no banner ads The company doesn t profit off your data An Internet for the People explores how people use craigslist to buy and sell find work and find love and reveals why craigslist is becoming a lonely outpost in an increasingly corporatized web Drawing on interviews with craigslist insiders and ordinary users Jessa Lingel looks at the site s history and values showing how it has mostly stayed the same while the web around it has become more commercial and far less open She examines craigslist s legal history describing the

company's courtroom battles over issues of freedom of expression and data privacy and explains the importance of locality in the social relationships fostered by the site More than an online garage sale job board or dating site craigslist holds vital lessons for the rest of the web It is a website that values user privacy over profits ease of use over slick design and an ethos of the early web that might just hold the key to a more open transparent and democratic internet **Virtual Space in the City** Cindy Pamela Liu,2008 **The Complete Idiot's Guide to Computer Basics, 5th Edition** Joe Kraynak,2009-02-03

Time for an upgrade The fifth edition of The Complete Idiot's Guide to Computer Basics places the reader in charge of the computer rather than the other way around and places the focus on software troubleshooting rather than hardware technobabble The reader wants to do something practical with his or her computer this book shows them how Covers basic office programs and how to manage photo video and music files Advice on safe web surfing including coverage of newsgroups message boards and mailing lists New green computing initiatives that help protect the environment Maintenance and upgrading information *The Design of Sites* Douglas K.
