Law, Lawyers and Race Mathias Möschel, 2014-09-15 Critical Race Theory CRT is virtually unheard of in European scholarship especially among legal scholars Law Lawyers and Race Critical Race Theory from the United States to Europe endeavours to fill this gap by providing an overview of the definition and consequences of CRT developed in American scholarship and describing its transplantation and application in the

continental European context The CRT approach adopted in this book illustrates the reasons why the relationship between race and law in European civil law jurisdictions is far from anodyne Law plays a critical role in the construction subordination and discrimination against racial minorities in Europe making it comparable albeit in slightly different ways to the American experience of racial discrimination Anti-Semitism Islamophobia anti Roma and anti Black racism constitute a fundamental factor often tacitly accepted in the relationship between law and race in Europe Consequently the broadly shared anti race and anti racist position is problematic because it acts to the detriment of victims of racism while privileging the White Christian male majority This book is an original exploration of the relationship between law and race As such it crosses the disciplinary divide furthering both legal scholarship and research in Race and Ethnicity Studies Marxism and Educational Theory Mike Cole, 2007-10-18 We live in a world where thousands make massive profits out of the labours of others while those others exist as wage slaves millions of whom die of starvation and poverty related illness every year The fundamental aim of Marxism is the overthrow of the anarchic exploitative and eco destructive system of world capitalism and its replacement by world socialism and equality To build a socialist world is a task of gargantuan proportions but one that Marxists believe is eminently achievable This book addresses some of these challenges from within educational theory The key theoretical issues addressed are utopian socialism poststructuralism and postmodernism transmodernism globalisation neo liberalism and environmental destruction the new imperialism critical race theory Marxism and Educational Theory compellingly and informatively propels the debate forward in the pursuit of that socialist future In that quest suggestions are made to connect theoretical issues with the more practical concerns of the school and the classroom With a specially written Foreword by Peter McLaren this timely book will be of interest to academics and students interested in educational theory the sociology of education sociology politics philosophy and critical theory Class, Race and Education under Neoliberal Capitalism Dave Hill, 2024-06-07 With the onset of Austerity Capitalism and Immiseration Capitalism and with the increasing commodification marketisation and privatisation of society and of education Marxist Theory and Marxist Education Theory have taken on a new urgency In this collection of essays written from a classic Marxist perspective Dave Hill lays bare how the capitalist class in the knowledge industry academia use ideological and repressive state apparatuses such as education to divide disarm and demoralise critical Marxist analysis and activism This title is co published with Aakar Books Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan *Intersectionality and "Race" in Education* Kalwant Bhopal, John Preston, 2012-01-25 Education is a controversial subject in which difficult and contested discourses are the norm Individuals in education experience multiple inequalities and have diverse identifications that cannot necessarily be captured by one theoretical perspective alone This edited collection draws on empirical and theoretical research to examine the intersections of race gender and class alongside other aspects of personhood within education Contributors from the fields of education and sociology seek to locate the dimensions of difference and identity within recent

theoretical discourses such as Critical Race Theory Judith Butler and queer theory post structural approaches and multicultural models as they analyze whiteness and the education experience of minority ethnic groups By combining a mix of intellectually rigorous accessible and controversial chapters this book presents a distinctive and engaging voice one that seeks to broaden the understanding of education research beyond the confines of the education sphere into an arena of sociological and cultural discourse Life in Schools Peter McLaren,2015-11-17 This new edition brings McLaren s popular classic textbook into a new era of Common Core Standards and online education The book is renowned for its clear provocative classroom narratives and its coverage of political economic and social factors that are undervalued in other educational textbooks An international committee of experts ranked Life in Schools among the top twelve education books in the world *Critical Service-Learning as a Revolutionary Pedagogy* Brad J.
