Cross Cultural Approaches To Literacy Cambridge Studies In Oral And Literate Culture:

Cross-Cultural Approaches to Literacy Brian V. Street, 1993-03-25 Cross Cultural Approaches to Literacy investigates the meanings and uses of literacy in different cultures and societies In contrast to previous studies where the focus of research has been on aspects of cognition education and on the economic consequences of literacy these largely ethnographic essays bring together anthropological and linguistic work written over the last ten years Accounts of literacy practices in a variety of locations including Great Britain the United States Africa the South Pacific and Madagascar illustrate how these practices vary from one context to another and challenge the traditional view that literacy is a single uniform skill essential to functioning in a modern society Global Literacies and the World Wide Web Gail E. Hawisher, Cynthia L. Selfe, 2005-07-05 The World Wide Web is transforming the way that information is distributed received and acted upon Global Literacies and the World Wide Web provides a critical examination of the new on line literacy practices and values and how these are determined by national cultural and educational contexts Gail Hawisher and Cynthia L Selfe have brought together scholars from around the world including Mexico Hungary Australia Palau Cuba Scotland Greece Japan Africa and the United States Each represents and examines on line literacy practices in their specific culture Global Literacies and the World Wide Web resists a romanticised and inaccurate vision of global oneness Instead this book celebrates the dynamic capacity of these new self defined literacy communities to challenge the global village myth with robust hybrid redefinitions of identity that honour ethnic cultural economic historical and ideological differences This is a lively and original challenge to conventional notions of the relationship between literacy and technology **Literacy, Emotion and Authority** Niko Besnier, 1995-08-24 Literacy continues to be a central issue in anthropology but methods of perceiving and examining it have changed in recent years In this 1995 study Niko Besnier analyses the transformation of Nukulaelae from a non literate into a literate society using a contemporary perspective which emphasizes literacy as a social practice embedded in a socio cultural context He shows how a small and isolated Polynesian community with no access to print technology can become deeply steeped in literacy in little more than a century and how literacy can take on radically divergent forms depending on the social and cultural needs and characteristics of the society in which it develops His case study which has implications for understanding literacy in other societies illuminates the relationship between norm and practice between structure and agency and between group and individual , *The SAGE Handbook of Early Childhood Literacy* Joanne Larson, Jackie Marsh, 2012-11-09 This new edition of the much loved Handbook of Early Childhood Literacy has been revised and updated to retain its cutting edge focus on emergent and important areas of research This comprehensive work guides the reader through current social cultural and historical analysis on a global scale The new edition contains a greater range of methodologies and chapters on space and literacy disabilities and early childhood literacy digital literacies indigenous literacy play and literacy policy In the Handbook readers will find coverage of all the key topics in early childhood literacy

The exceptional list of contributors offers in depth expertise in their respective areas of knowledge The Handbook is essential for Undergraduate students Masters students PhD students CPD students researchers and literacy centre personel The second edition of this internationally respected and widely used text encompasses a myriad of new issues and insights both through new contributions and thoughtfully revised chapters which raise fresh questions and challenges for research and practice In pushing the boundaries still further the handbook retains its rightful place at the forefront of research into early childhood literacy practice in the 21st century Professor Teresa Cremin Open University UK This handbook provides in depth knowledge of insights and theories about the dynamic process of how children come to know literacy as thinking humans in social and cultural spaces There is a rich array of research perspectives of children s meaning making through family and digital liteacies play and literacy and in school and out of school literacy experiences Yetta Goodman Regents Professor University of Arizona

From Orality to Orality James A. Maxey,2009-09-15 In this groundbreaking work Bible translation is presented as an expression of contextualization that explores the neglected riches of the verbal arts in the New Testament Going beyond a historical study of media in antiquity this book explores a renewed interest in oral performance that informs methods and goals of Bible translation today Such exploration is concretized in the New Testament translation work in central Africa among the Vute people of Cameroon This study of contextualization appreciates the agency of local communities particularly in Africa who seek to express their Christian faith in response to anthropological pauperization An extended analysis of African theologians demonstrates the ultimate goals of contextualization liberation and identity Oral performance exploits all the senses in experiencing communication while performer text and audience negotiate meaning Performance not only expresses but also shapes identity as communities express their faith in varied contexts This book contends that the New Testament compositions were initially performed and not restricted to individualized silent reading This understanding encourages a reexamination of how Bible translation can be done Performance is not a product but a process that infuses biblical studies with new insights methods and expressions

The Oxford Handbook of Cuneiform Culture Karen Radner,Eleanor Robson,2011-09-22 An authoritative guide to the Ancient Middle East as seen through the lens of cuneiform writing the writing system of ancient Mesopotamia Written by a team of international scholars with chapter bibliographies and numerous illustrations the Handbook is a state of the art guide to the discipline as well as offering pathways for future research

Orality and Literacy Keith Thor Carlson,Kristina Fagan,Natalia Khanenko-Friesen,2011-04-30 Orality and Literacy investigates the interactions of the oral and the literate through close studies of particular cultures at specific historical moments Rejecting the great divide theory of orality and literacy as separate and opposite to one another the contributors posit that whatever meanings the two concepts have are products of their ever changing relationships to one another Through topics as diverse as Aboriginal Canadian societies Ukrainian Canadian narratives and communities in ancient Greece Medieval Europe and twentieth century Asia these cross disciplinary

essays reveal the powerful ways in which cultural assumptions such as those about truth disclosure performance privacy and ethics can affect a society's uses of and approaches to both the written and the oral The fresh perspectives in *Orality and Literacy* reinvigorate the subject illuminating complex interrelationships rather than relying on universal generalizations about how literacy and orality function

Jerome of Stridon and the Ethics of Literary Production in Late Antiquity Thomas E. Hunt, 2019-12-30 In *Jerome of Stridon and the Ethics of Literary Production in Late Antiquity* Thomas E Hunt argues that Jerome developed a consistent theology of language and the human body that inflected all of his writing projects In doing so the book challenges and recasts the way that this important figure in Late Antiquity has been understood This study maps the first seven years of Jerome's time in Bethlehem 386-393 Treating his commentaries on Paul his hagiography his controversy with Jovinian his correspondence with Augustine and his translation of Hebrew the book shows Jerome to be immersed in the exciting and dangerous currents moving through late antique Christianity

African American Literacies Elaine B. Richardson, 2003 This book addresses the literacy problems of African American students providing educators with an African American centred theory of rhetoric and composition
