Redesigning Senior Year

Nancy Faust Sizer
Foreword by Richard Lear

Crossing The Stage Redesigning Senior Year

Judd E. Hollander

Crossing The Stage Redesigning Senior Year:

Crossing the Stage Nancy Faust Sizer, 2002 Recent headlines attest to the apathy absenteeism and lost opportunity that are widespread among high school seniors Senior year is harder than most of us remember yet the author sees this period as an opportunity **Teaching the Whole Teen** Rachel Poliner, Jeffrey Benson, 2016-08-01 How can you help teens thrive now and for life Support them as whole learners Developing independence and responsibility Collaborating and communicating effectively Establishing valuable work habits Harnessing emotions and motivation In this insightful culturally responsive guide Poliner and Benson integrate these lifelong skills into daily practices through Practical applications for diverse populations in every class advisory team or club The latest research on best practices from adolescent psychology neuroscience school climate Tools for teachers administrators counselors and parents to help teens succeed now and later in school home workplace and community Teaching the Whole Teen supports adolescents and adults within the school to thrive

The New American High School Ted Sizer, 2013-05-22 The late Theodore Sizer s vision for a truly democratic public high school system Our current high schools are ill designed and inefficient We have inherited a program of studies that in its overall structure has not changed in over a century The question is What s next Theodore Sizer the founder of The Coalition of Essential Schools was a passionate advocate for the American school system In this his last book he offers a vision of what a future secondary education might look like In a book that tells the story of his own odyssey Sizer gives shape to a much needed agenda for improving our high schools Includes a vision for the future of our High Schools from one of America s greatest leaders of educational reform Written by Theodore Sizer founder of The Coalition of Essential Schools and author of landmark book Horace s Compromise This final book from the late Theodore Sizer reveals the man and his vision for our secondary education system Critical Small Schools Maria Hantzopoulos, Alia R. Tyner-Mullings, 2012-02-01 Critical Small Schools Beyond Privatization in New York City Urban Educational Reform features the most current empirical research about the successes and challenges of the small schools movement and the implications of such for urban public educational policy Situated in a climate of hierarchical reform many of the principles of the original small schools movement which are rooted in community participation innovative pedagogies and assessment and equity and social justice have become obscured by an educational agenda that emphasizes top down mandates and standards based reform With the increased popularity and the rapid proliferation of small schools the emphasis on size only has resulted in a bifurcation of the small schools movement on one end are the small schools which have embraced the democratic participatory and self governing nature of the original movement while on the other end are schools that have simply reduced their size without rethinking school structures and practices This book distinguishes the small schools featured and researched in this volume from schools that are simply small and labels them critical small schools By documenting the practices that take place in various critical small schools in New York City we show how these schools have narrowed the achievement gap and increased graduation and college acceptance

rates Although smallness is an essential feature in the design of these schools it is certainly not the only one and this volume illuminates the other elements that contribute to these schools successes and shortcomings Critical Small Schools also challenges the recent emphasis on charter schools as a panacea for urban educational reform By featuring research about the inner workings of public schools this volume challenges this new direction that steers successful school development away from public education Moreover as every site is fraught with some tension Critical Small Schools not only offers glimpses into intellectually vibrant and democratic learning communities but also acknowledges that these concepts are not static and necessitate continual reflection and renewal At this pivotal moment in educational reform this volume provides keen insight into the challenges and possibilities of the small schools movement and is indispensable for anyone interested in comprehensive public school reform

Secondary Education at the Crossroads Phillip Hughes, 2006-09-23 Education is a universal priority Currently it is at a crossroad In every society it is valued as a major road to produce more productive more harmonious and healthier citizens Yet in every setting there is deep dissatisfaction with the overall performance of education and there are major moves towards reform sometimes superficial but more often fundamental These reform processes have had only moderate and very uneven success Too often they are episodic reflecting a short term approach which is frequently changed for the latest enthusiasm or the most recent administration In Asia and the Pacific countries many systems are in the process of construction or reconstruction Can we learn from the experiences of others Given the multiplicity of efforts at reform and the variety of situations for reform there may well be lessons we can learn from each other s efforts and each others failures and successes This book features contributions from experienced researchers who have worked in many different settings and bring their own insights to attack this universal problem

Keeping School Deborah Meier, Nancy Faust Sizer, Theodore R. Sizer, 2004 Education reformers Deborah Meier Theodore Sizer and Nancy Sizer have published books that are acknowledged classics of education writing books that have literally helped shape a movement centered on small schools community and alternative visions of teaching and learning But as school principals all three have also done another kind of writing as well Every week as principles they wrote short essays in their schools newsletters to families Sharp and accessible but intellectually ambitious these little essays talk about everything from homework to discipline from academic expectations to reading for pleasure Keeping School collects the best of these gems from the two schools the authors have most recently run an urban public elementary school in Boston and an exurban charter secondary school thirty miles west in Devens Massachusetts There could be no better portrait of the kind of small school that Meier and the Sizers advocate and the values behind them than these elegant thoughtful intimate letters They are organized around the themes of Authority Community Learning and Standards and the writers who have been friends and colleagues for years frame them with new essays on those larger topics Reflecting decades of practical wisdom this collection is a portrait of a different way of keeping school and an essential companion to books like Ted Sizer s *Horace s Compromise* Ted and Nancy Sizer s *The*

Students Are Watching and Meier's The Power of Their Ideas

Designing and Teaching Undergraduate Capstone Courses Robert C. Hauhart, Jon E. Grahe, 2015-01-12 Enrich your students and the institution with a high impact practice

Designing and Teaching Undergraduate Capstone Courses is a practical research backed guide to creating a course that is valuable for both the student and the school The book covers the design administration and teaching of capstone courses throughout the undergraduate curriculum guiding departments seeking to add a capstone course and allowing those who have one to compare it to others in the discipline The ideas presented in the book are supported by regional and national surveys that help the reader understand what's common what's exceptional what works and what doesn't within capstone courses The authors also provide additional information specific to different departments across the curriculum including STEM social sciences humanities fine arts education and professional programs Identified as a high impact practice by the National Survey of Student Engagement NSSE and the Association of American Colleges and Universities LEAP initiative capstone courses culminate a student's final college years in a project that integrates and applies what they've learned The project takes the form of a research paper a performance a portfolio or an exhibit and is intended to showcase the student's very best work as a graduating senior This book is a guide to creating for your school or department a capstone course that ties together undergraduate learning in a way that enriches the student and adds value to the college experience Understand what makes capstone courses valuable for graduating students Discover the factors that make a capstone course effective and compare existing programs both within academic disciplines and across institutions Learn administrative and pedagogical techniques that increase the course's success Examine discipline specific considerations for design administration and instruction Capstones are generally offered in departmental programs but are becoming increasingly common in general education as well Faculty and administrators looking to add a capstone course or revive an existing one need to understand what constitutes an effective program Designing and Teaching Undergraduate Capstone Courses provides an easily digested summary of existing research and offers expert guidance on making your capstone course successful

Boletín Internacional de Bibliografía Sobre Educación, 2003

Redesigning Thinking Clive Grinyer, 2025-06-16 The world doesn't work But there is a way to make it work it's called design In Redesigning Thinking Clive Grinyer discusses service design the holistic process of managing all the points in a customer's journey with the provider from the initial introduction down to the last customer interaction with the purpose of designing each interaction and experience in a way that is user friendly and relevant to the customer He argues that design is a way to think more humanely to create better business and navigate through complex systems to achieve successful outcomes Sharing inspirational stories and examples of the power of design from around the world he explores how service design methods combine data and research to understand how context and creativity can be used as a problem solving tool to engineer, reframe and deliver effective solutions and help organizations succeed Whether you are a leader in business or in

government a practicing designer looking to use your skills to enhance your impact or a student keen to use your creativity to improve the prospects of the planet and society this book will challenge you to change how you think It will help you make informed decisions and craft products and services designed to create solutions for the people who use them **Library**
Media Connection ,2004
