

CONFLICT SOCIOLOGY
A SOCIOLOGICAL CLASSIC UPDATED

BY RANDALL COLLINS
UPDATED AND ABRIDGED BY STEPHEN K. SANDERSON

Conflict Sociology Sociological Classic Comparative Ebook

Siniša Malešević

Conflict Sociology Sociological Classic Comparative Ebook:

Conflict Sociology Randall Collins, Stephen K. Sanderson, 2015-12-03 This new edition is a substantial abridgment and update of Randall Collins's 1975 classic *Conflict Sociology*. The first edition represented the most powerful and comprehensive statement of conflict theory in its time. Here Sanderson has retained the core chapters and added discussions on Collins's and others' work in recent years. An afterword summarizes Collins's latest forays into microsociological theorizing and attempts to demonstrate how his newer microsociology and older macrosociology are connected. **EBOOK:**

THEORIZING CLASSICAL SOCIOLOGY Larry Ray, 1999-11-16 How did classical sociology emerge and take shape? What is the significance of classical sociology for current theoretical debates? How can the classical tradition in social theory inform our understanding of the crisis of modernity? Social theory has been formed through elaboration and critique of the classical tradition, and this introductory volume illuminates current theoretical terrain by examining major classical theories of Saint-Simon, Comte, Marx, Durkheim, Dilthey, Tönnies, Simmel, and Weber, highlighting recurring themes and debates. It explains how classical sociology emerged through a debate with the Enlightenment in which the concept of the social took shape. This was constructed around various themes emphasizing contrasting components of social life, including material, cultural, rational, and moral factors. These divergent theorizations set the scene for the play of theoretical oppositions that characterize much subsequent theoretical dispute. Along with these debates, there were questions about the very identity of sociology, which in turn relate to a core issue in the discipline: grasping the crisis of modernity. This authoritative text introduces the key issues of classical sociology to undergraduates, making use of student-friendly features such as clear summaries, further reading, and a glossary. It lays the foundations for an understanding of contemporary discussion and will also be recognized at the postgraduate level as a key reference in the field. **Ebook: Sociological Theory** George Ritzer, Jeff Stepnisky, 2014-10-16

The ninth edition of *Sociological Theory* by George Ritzer gives readers a comprehensive overview of the major theorists and schools of sociological thought. Key theories are integrated with biographical sketches of theorists and are placed in their historical and intellectual context. Written by one of the foremost authorities on sociological theory, this text helps students better understand the original works of classical and modern theorists and enables them to compare and contrast the latest substantive concepts. *Ebook: Sociology: A Brief Introduction* Schaefer, 2014-10-16 Ebook *Sociology: A Brief Introduction*

Classical and Contemporary Social Theory Tim Delaney, 2024-03-22 The second edition of *Classical and Contemporary Social Theory* provides wraparound coverage of the classical social theorists and influential sociological schools of thought in the contemporary period. Explained carefully and clearly throughout, Tim Delaney reviews the key concepts and contributions from brilliant classical social thinkers and recent sociological thought spanning over 500 years of source material. He weaves together profiles of leading theorists, thorough descriptions of major academic and intellectual perspectives, and discussion of prevailing themes of interest that have concerned theorists and sociologists throughout time and will likely continue to do so.

in the future The book emphasizes methods of investigation and application in its overview of the field by challenging readers to think about problems critically and in relation to key sociological theories and to also apply their sociological understanding to real everyday events In this new edition Delaney revisits the classical period and highlights the special contributions of American social theorists and their impact on the diversity of thought leading into the contemporary era He attends to later schools of thought and weaves in important updates related to critical race theory and globalization With updated context and further applications the second edition of Classical and Contemporary Social Theory is a perfect addition to combined courses in social theory **The British National Bibliography** Arthur James Wells,2009 An

Introduction to the Sociology of Religion Inger Furseth,Pål Repstad,2023-09-05 What are religion and nonreligion How do fundamentalism and religious radicalization emerge and grow How do social class gender sexuality race ethnicity and other factors affect religious beliefs practices and organizations Is religion a fundamental driving force or do political leaders use religion for their own purposes In exploring these pertinent questions An Introduction to the Sociology of Religion provides an overview of sociological theories of contemporary religious life Theoretical discussion is accompanied by presentations of empirical research from several religious traditions in many parts of the world The sociology of religion is linked closely to developments in general sociology Some chapters are organized according to topic while others offer brief presentations of classical and contemporary sociologists from Karl Marx to Patricia Hill Collins and their perspectives on social life including on religion This second edition has been thoroughly updated throughout with new chapters on religion and social inequalities social and religious movements and extremism Covering classical sociology of religion as well as contemporary debates and topics this book is ideal reading for students approaching the sociology of religion for the first time **The Sociology of**

War and Violence Siniša Malešević,2010-06-10 War is a highly complex and dynamic form of social conflict This book demonstrates the importance of using sociological tools to understand the changing character of war and organised violence The author offers an original analysis of the historical and contemporary impact that coercion and warfare have on the transformation of social life and vice versa Although war and violence were decisive components in the formation of modernity most analyses tend to shy away from the sociological study of the gory origins of contemporary social life In contrast this book brings the study of organised violence to the fore by providing a wide ranging sociological analysis that links classical and contemporary theories with specific historical and geographical contexts Topics covered include violence before modernity warfare in the modern age nationalism and war war propaganda battlefield solidarity war and social stratification gender and organised violence and the new wars debate **Conflict sociology** Randall Collins,1975

Conflict Sociology Randall Collins,1977

Unveiling the Magic of Words: A Report on "**Conflict Sociology Sociological Classic Comparative Ebook**"
