Consolation The Spiritual Journey Beyond Grief:

Consolation Maurice Lamm, 2004-03-01 Helps mourners grow through their grief shows consolers how to listen and speak with their hearts and includes insights on the days of shiva the year of kaddish and the true purpose of Jewish mourning rituals Reprint *Consolation* Maurice Lamm, 2010-01-01 For most of us mourning is something to be endured We are often merely passive spectators of our own pain and we see our grief period as a grim mountain that we must climb over But Maurice Lamm tells us it can be much more Bereavement he says can often be an enriching experience even as it is a sorrowful and often tragic one Our faith in a higher power can move us to not only live through the present but also to stride into the future with renewed energy and a revitalized outlook on life In this his sequel to the best selling *The Jewish Way in Death and Mourning* over 350 000 copies sold Rabbi Lamm helps mourners not just get through their grief but also grow through it He gently steers mourners on the path that allows their sorrow to teach them important lessons about life And he shows consolers how to listen and speak with their hearts so that they can provide real comfort to others His marvelous insights on the days of shiva the year of kaddish and the lovingkindness of others reveal the richness and true purpose of Jewish mourning rituals and customs They prepare us to receive consolation and ready us for the journey that will take us beyond grief His *Words for a Loss When at a Loss for Words* is a treasury of readings for finding and giving comfort by transforming the spiritual ideas of an ancient faith into contemporary language Here there are stories and fables that illuminate our complicated lives meditations from the depths of human experience and a gallery of unforgettable images that speak to our souls during times of loss Rabbi Lamm's words will help all who walk the path of grief to find their way to consolation and then beyond to an appreciation of the blessings and opportunities that present themselves to us when we confront loss And they can even take us further to discover the celebrated Jewish art of wringing blessing out of tragedy

Helping Those Experiencing Loss Robert J. Grover Professor Emeritus, Susan G. Fowler, 2011-07-13 This book provides a guide for grieving youth and adults as well as extensive descriptive lists of recommended professional literature resources Grief caused by loss is both a very common human experience and a highly individualized one For example children experience a number of losses that are unique to their young age such as sibling and parent death adoption or divorce and should be given special consideration by professionals and parents helping them in these situations For gay lesbian or cohabiting heterosexual couples that suffer the loss of a partner societal standards often deny the survivors in these relationships the right to grieve *Helping Those Experiencing Loss A Guide to Grieving Resources* is a book like no other supplying compassionate information for navigating the emotional distress that every man and woman will experience in their lifetime as well as a comprehensive guide to the literature of bereavement and grieving It explains the grieving process interpreting the results of research on the topic in plain language and addressing specific groups children young adults parents who have lost a child adults who have lost spouses and the aging population Homeward Bound Amy

Zietlow, Naomi Cahn, 2017-03-08 *Homeward Bound* shows that as family structure becomes more complex so too does elder care and existing institutions and legal approaches are not prepared to handle those complexities As 79 million American Baby Boomers approach old age their diverse family structures mean the burden of care will fall on a different cast of family members than in the past Our current approaches are based on an outdated caregiving model that presumes life long connection between the parents and offspring with the existence of high internal norm cohesion among family members providing a valuable safety net for caregiving Single parent and remarried parent led families are far more complicated fragile and point to the need for increased formal support from the religious medical legal and public policy communities We base our analysis on in depth qualitative interviews with surviving grown children and stepchildren whose mother father stepparent or ex stepparent died Their stories illustrate the profound ways that the caregiving mourning and inheritance process has changed in ways not adequately reflected in formal legal medical and religious tools The solutions center on awareness and preparation providing more support for individual planning for incapacity and death and even more importantly creating legal political and social planning for the graying of America at a time of increasingly complex familial ties

Love in the Present Tense Nina Praske, 2025-02-28 A celebration of a life a story of a death but most importantly an exploration of grief and loss relevant to all those in a position to make that experience more bearable This book is essential reading for anyone working or preparing to work with young adults and others facing terminal illness and their families It is written by a bereaved mother of a 25 year old son treated unsuccessfully for cancer Heartbreakingly honest Nina draws on relevant theory research and narrative texts as well as personal reflections She considers what might have made the hideous journey through treatment dying and bereavement easier to bear This is a moving and memorable story for all of us but there are also learning points throughout for medics and medical policy makers specifically and the health and social care professions more generally Students and experienced nurses doctors counsellors clerics and others will benefit from deepening their understanding in order to work more effectively with people facing the unthinkable

Strange Cocktail Adriana X. Jacobs, 2018-07-23 For centuries poets have turned to translation for creative inspiration Through and in translation poets have introduced new poetic styles languages and forms into their own writing sometimes changing the course of literary history in the process *Strange Cocktail* is the first comprehensive study of this phenomenon in modern Hebrew literature of the late nineteenth century to the present day Its chapters on Esther Raab Leah Goldberg Avot Yeshurun and Harold Schimmel offer close readings that examine the distinct poetics of translation that emerge from reciprocal practices of writing and translating Working in a minor literary vernacular the translation strategies that these poets employed allowed them to create and participate in transnational and multilingual poetic networks *Strange Cocktail* thereby advances a comparative and multilingual reframing of modern Hebrew literature that considers how canons change and are undone when translation occupies a central position how lines of influence and affiliation are redrawn and literary

historiographies are revised when the work of translation occupies the same status as an original text when translating and writing go hand in hand
