## **Creation In Scripture:**

**Creation in Scripture** Herold Weiss,2012-04-30 The creation evolution controversy is one of the most contentious in Christianity It may appear to many to be much less important than issues with more direct moral implications Yet how we view the relationship between science and religion will have a significant impact on how we live and on how we understand our faith and our world Herold Weiss comes to this issue not as a scientist historian or a philosopher but rather as a student of Scripture He believes that the various authors of Scripture view creation in varied and sometimes contrasting ways Many discussions of creation focus on the first three chapters of Genesis but Weiss takes in the entire scope of scripture looking at creation in the prophets the wisdom literature Genesis 2 Genesis 1 Romans the Corinthian letters Colossians Hebrews and finally Revelation In a book of this size it is impossible to study all of these areas in depth but Weiss provides an excellent overview that will help any student of the Bible gain a better perspective on how creation impacts biblical teaching on a variety of issues His presentation is representative rather than exhaustive but it provides a breadth that is much needed and often lacking in discussions of this issue No matter in which way the biblical authors viewed creation they were free to affirm their faith in the Creator Weiss helps us understand that we like them can also affirm our faith in the Creator God no matter how we view the natural world and the universe in which we live The Bible itself demonstrates the independence of faith from any and all cultural descriptions of the material reality of which we are a part This book would provide a suitable guide for a Sunday School class or small group wanting to look at creation from a variety of perspectives *After the Beginning* Anthony L. Edridge,2012-06-27 A new and inspiring view of creation and the Flood *After the Beginning* offers compelling insight about Gods purpose for an eternal loving relationship with mankind that was made in His image This theme is revealed in Genesis with the creation of Adam and Eve with the animals named by Adam and with the animals that were saved on the ark From creation through the Flood Dr Edridge concludes that the creatures described in Genesis had emotional capability such as mammals and birds Further consideration of species that should be included in the creation narrative leads to agreement between the biblical sequence of creation and the scientific chronology of the fossil record and the early stages of the Earths development Dr Edridge examines different flood models to determine if they are consistent with biblical parameters and scientific scrutiny Based on documented flood records and geological events he proposes a new catastrophic Flood Model that meets both qualitative and quantitative requirements for the most likely flooded area the cradle of civilization This model is unique providing a viable mechanism that caused the Flood to subside but which agrees with the biblical description *How Awesome this Place* Peter K. Thoss,2015-12-29 Creation and Evolution are sometimes controversial topics to modern Man How can a modern person of Faith reconcile scientific knowledge with biblical accounts of Creation of Heaven and Earth Why where and how does Man fit into the overall scheme of things What is the destiny of the Human Race How can Man avoid trouble and have a successful Life These are all age old questions answered by an age old

Biblical Creation Stories Mark G. Boyer,2025-07-31 The Bible has multiple creation accounts Most people know or have heard of the one which took six days but they are not familiar with the rest Biblical creation stories are plural because they are hypothetical inventions by various biblical authors The simple fact of the matter is that there was no one present when creation occurred Thus with no firsthand experience various biblical authors each with his own biases and politics wrote one Biblical creation stories are about the act of God creating and the product of that creation While it is not exhaustive this book explores the many biblical creation stories and invites readers to use them to nourish their spirituality Spirituality is the experience of the human spirit connecting to the divine Spirit or vice versa Through reading the plurality of biblical texts about creation through reflections on creation accounts through praying a part of a psalm through meditating on a question designed to lead the reader into deeper reflection based on one s personal life and through journaling to record insights a reader can nourish his or her spirituality Insights can be gained that strengthen the Spirit spirit connection
