Criminal Justice Technology In The 21st Century:

Criminal Justice Technology in the 21st Century Laura J. Moriarty,David L. Carter,1998 **Criminal Justice in the 21st Century (4th Edition)** Laura J. Moriarty,2025-03-26 The fourth edition of Criminal Justice Technology in the 21st Century comes just about five years after the COVID 19 pandemic when technology took a more prominent role in our everyday lives and more importantly in the criminal justice system Ideas that once were mere thoughts from academics pondering the future have become everyday realities While most areas of life came to a standstill as the pandemic ensued the criminal justice system could not stop Crime adapts more seamlessly than other aspects of society and as such the criminal justice system needed to adapt as well The contributing authors were asked to consider the pandemic and its impact on evolving technology and advancements to address crime Likewise other societal concerns focusing on law enforcement and its questionable use of force at times have escalated the need for technology to ensure that over policing in minority neighborhoods and accountability is established or not to deescalate violence whether police brutality or protester police violence The impact of technology remains to be seen but there is real hope that such technology can begin to shed light on what is happening in these volatile situations Either the current contributors have updated their chapters from the Third Edition or there are new contributors focusing on the abovementioned issues This fourth edition with more than 20 contributors highlights the most current thinking about criminal justice technology The book is longer than the previous editions but has fewer chapters This is the result of paring down what is included in this new edition The hope is that these chapters will be the most relevant and useful to both the expert and the neophyte Criminal justice technology will continue to advance and we must keep abreast of new trends *The Psychology of Police Deadly Force Encounters* Laurence Miller,2020-02-11 The Psychology of Police Deadly Force Encounters Science Practice and Police is a fascinating look into the reality of police work The author integrates noted theories into a street wise understanding of being a police officer The focus of this book is on the use of deadly force by officers a topic of considerable importance The author discusses the psychosocial aspects of deadly force use stemming from the individual officer the situation organizational influences and the police culture Expanding further into social issues the controversial topic of race and use of deadly force is discussed This depiction looks at both sides that of racial victimization and that of the police which helps to provide a rather unique perspective on this important issue Of interest the author breaks down the different dimensions of cognition as a factor in decision making among police including the perception of the situation the action taken depending on that perception and the role of present and past memory This will make for a useful training topic to alert officers to the cognitive processes that go into deadly force use processes that they have the control to change to make a better decision Next the book delves into the biological factors that may be involved in police decision making again where deadly force is involved The various negative psychological impacts that a deadly force situation may bring about are identified and explained This book will be

Franklin,John F. Hein,2021-02-22 Authors Franklin and Hein have witnessed firsthand difficulties experienced in some black communities They use their knowledge to analyze and discuss the interactions between American policing a subculture of the black community and the BLM movement The authors wrote this book not because of attacks on police officers but because of overzealous actions by officers to shoot black men It describes how blue on black shootings along with police tactics sometimes cause intense citizen responses through public statements outbursts and demonstrations It begins with an examination of the differences between the black and white communities how the same incident can be viewed from two different perspectives and how a discussion can be perceived unbiased by one but biased and unjust by another Because of civil rights efforts American policing is going through a transformation A change in policing tactics must be met with a re evaluation of some cultural norms by the black community They also discuss the lack of support by blacks shown to other blacks when there is an impression of being not black enough The authors believe in political correctness but also believe that political correctness is harming the black community because well recognized negative issues in some communities are not being addressed to avoid criticism of black culture In the final chapter the authors discuss the failure of black leadership to make any earnest effort to rescue a wanting black subculture from itself Finally the authors believe that American policing understands its 21st century obligations and is taking steps to meet them *Correctional Health Care Delivery* Kenneth L.
