Vintage Couture Tailoring Thomas von Nordheim, 2013-06-30 Traditional tailoring is a fascinating craft which has not changed for many centuries; however, the techniques are now known only by a few practising in the best couture ateliers and bespoke tailors' workrooms. Nothing feels quite so luxurious or sophisticated as bespoke clothes, but the tailoring skills they require are often seen to be shrouded in mystery and the clothes therefore only accessible to the rich and famous. This practical book reveals the trade secrets of couture tailoring and brings vintage couture tailoring within the reach of all. With step by step photographs and professional tips throughout, it shows how a ladies jacket is made and thereby introduces a range of fundamental tailoring techniques. These can be used for garments for either gender as well as other sewing projects: moulding fabric to shape with the iron, employing loose interfacings, hollow shoulder construction, pad stitching, canvas interlining and weighting hems, making tailored and bound buttonholes and many more forgotten techniques. Written by a tailor of international repute, *Vintage Couture Tailoring* is dedicated to all who appreciate the highest standard of craftsmanship and who like using their eyes and hands to produce beautiful garments. Vintage couture tailoring is practised by only a few establishments around the world today, and this practical book reveals the trade secrets of couture tailoring. An invaluable guide for professionals wishing to further their skills and for enthusiasts with an interest in traditional tailoring. Shows how to make a ladies jacket from preparation through to assembly and reveals the exquisite finishing details that are the hallmark of couture tailoring. Superbly illustrated with 417 colour step by step photographs. Thomas von Nordheim is a tailor of international repute.
